## About Me

I'm Yousuf Jamil, a WordPress Developer with over three years of experience building fast, secure, responsive websites. I specialize in Elementor Pro, theme customization, and solving real-world issues like layout bugs, speed problems, and mobile responsiveness.

I've collaborated with small businesses, agencies, and startups to create websites that look great and convert well. My approach is always client-focused, ensuring I deliver clean, scalable code and excellent support.

## Experience

### Wordpress Developer

January 2025 - Present | Freelancer

- Design and maintain WordPress sites, ensuring optimal functionality, website architecture, and user experience.
- Develop and implement custom page templates and layouts.
- Research relevant keywords and incorporate them into the website as part of on-page SEO.
